Subham Saini

Data Science

Hello, I'm Subham, and I'm on a thrilling journey through the world of data science and machine learning. With a passion for unravelling complex problems and extracting meaningful insights from data, I'm driven by the endless possibilities that this field offers. From predictive modelling to data- driven decision-making, I'm on a mission to make a positive impact through the power of data. Let's explore, learn, and innovate together!

EDUCATION

B.tech.in Mechanical Engineering

Apex Institute Of Engineering & Technology Affiliated From Rajasthan Technical University

08/2012 - 07/2016   *India*

WORK EXPERIENCE

Regex Software Services

jaipur

03/2023 - Present   *India*

Internship Trainee

- Regex Software Services aims to provide an additional advantage to the field of information technology. We are a team of passionate, skilled, and energetic individuals collaborating to offer top-notch services. With offices located in Jaipur and Pune, we strive to transform your ideas into tangible results. Our brand represents a fusion of expertise, innovation and contemporary knowledge.

Quality Engineer & 4M Incharge

Rohtas Fasteners Private Limited, Ismaila, Rohtak

07/2019 - 01/2023

RFL is a company Engaged in the Manufacturing Of Automotive components for breaking, suspension, engine transmission components to its Existing Customers Mahindra ,Nissin, RICO, QH. Talbros, ASK Automotive, Chassis, DID India, Sanjeev Auto, Somic ZF and recently started Export also in different countries.

Achievements/Tasks

- Responsible for all 4M change as well as Handling Abnormal Situation and maintain their record as per MACE requirement.
- Fully responsible for Inspection activities.
- Knowledge of incoming, In-process , PDI & their inspection Report .

Billion Engineers PVT LTD.

Quality Engineer

08/2017 - 06/2019   *India*

Achievements/Tasks

- Fully responsible for Inspection activities.

SKILLS

Feature Engineering   Python Programming Language

Machine Learning   Deep Learning

Natural Language Processing   Open CV   SQL   Linux

Github   Big Data

PROJECTS

Diwali Sale Analysis ⤴

- Diwali Sale Analysis Project is a data-driven approach to understanding customer preferences and optimizing your sales strategy during this festive season. We've harnessed the power of Python's data science libraries - NumPy, Pandas, Matplotlib, and Seaborn - to transform raw sales data into actionable insights.

Laptop Price Predictor

- Laptop Price Predictor Project, powered by Python's tools like NumPy, Pandas, Matplotlib, Seaborn, and machine learning algorithms like Random_Forest_Classifier and Boosting. This project is your ultimate guide to making informed laptop buying and selling decisions.

Sarcasm Detection

- Sarcasm Detection Project, crafted with Python, Pandas, and Natural Language Processing (NLP). In an era of digital communication, detecting sarcasm is more important than ever. Our project leverages Pandas for efficient data management and NLP techniques to analyze text for sarcasm

CERTIFICATES

Data Science at Regex Software (03/2023 - Present)

Internship : Hindustan Copper Ltd., Khetri Nagar Raj.

LANGUAGES

Hindi
Professional Working Proficiency

English
Native or Bilingual Proficiency
